CLASSIC SERIES FENCE SCREEN

100 Series - FenceBlock

98%	3-5 	
VISIBILITY BLOCKAGE	YEAR LIFESPAN	UV COLOR PROTECT CERTIFIED

OPTIMIZED FOR PRIVACY

- ➔ 98% Privacy Blockage, Woven Polypropylene (PP)
- ➔ Optimum UV Additives for Weathering Protection
- ➔ Offers Maximum Blockage

FenceBlock is one of our top-selling privacy fence screens with its high level of privacy, smooth clean look, and economical price point. **FenceBlock** privacy fabric is a lightweight, tightly knit, UV-stabilized polypropylene material finished with a strong sewn-on binding and brass grommets.

130 Series - Temporary Fence Screen

85%	1-3 	
VISIBILITY BLOCKAGE	YEAR LIFESPAN	UV COLOR PROTECT CERTIFIED

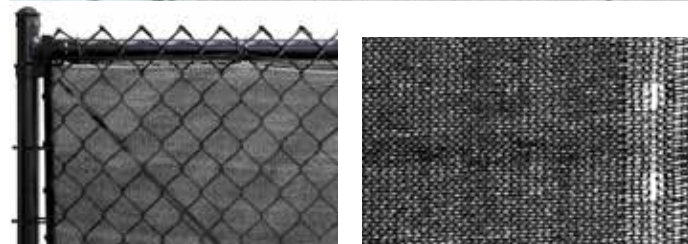

OPTIMIZED FOR PRIVACY

- ➔ 85% Privacy Blockage, Tight-Knit Polyethylene (HDPE)
- ➔ Optimum UV Additives for Weathering Protection
- ➔ Offers Maximum Blockage

Temp Fence Privacy Screen is made from knitted heavy-duty polyethylene material, perfect for temporary use for construction fence and/or residential projects. With a lightweight property, installing the privacy screen on chain link fences can be easily done and can be easy to transport and store right after the project is done.

SPECIALTY PRODUCTS

ALL PRODUCTS ARE IN STOCK

Here at FenceScreen®, we stock the largest inventory of products that fits any projects and needs.

With our family of brands consisting of FenceScreen®, NatraHedge® and FenPro®, our company has the largest product offering available to the construction, special events, disaster relief, and sport facilities markets. This means when you need any product, we have premium products in stock, ready to ship to meet your time frame.

FENCE FASTENERS

L7 FENCE FASTENERS

- ➔ Manufactured from UV & Weather Rated Filtered Nylon
- ➔ 50lb. Tensile Strength & Fits Diameters up to 1-7/8" or Smaller
- ➔ 7" Fence Fasteners (100 Count/Bag)

L8 FENCE FASTENERS

- ➔ Manufactured from UV & Weather Rated Filtered Nylon
- ➔ 120lb. Tensile Strength & Fits Diameters up to 2-1/4" or Smaller
- ➔ 8" Fence Fasteners (100 Count/Bag)

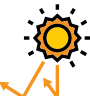

L14 FENCE FASTENERS

- ➔ Manufactured from UV & Weather Rated Filtered Nylon
- ➔ 50lb. Tensile Strength & Fits Diameters up to 3-3/4" or Smaller
- ➔ 14" Fence Fasteners (100 Count/Bag)

We only stock the best quality products, including our UV safe, long-lasting **Fence Fasteners** in three different sizes and strengths. Our fence fasteners are made for outdoor screens, are UV-resistant, and have a higher strength rating than store bought zip ties which can quickly degrade.

STAINLESS FENCE FASTENERS

10  YEAR LIFESPAN	 UV COLOR PROTECT CERTIFIED
--	--

INEXPENSIVE BOUNDARY NETTING

- ➔ Solid 304 Stainless Steel
- ➔ Self Locking Head
- ➔ 50ct. per Package

Stainless Fence Fasteners are ideal for hanging heavy duty fence-screens in demanding applications where corrosion, vibration, general weathering, U.V. radiation, and temperature extremes are a concern.

HOG RINGS

SECURE SCREENS TO THE CHAIN LINK FENCES

Quality steel **Hog Rings** are ideal for high-security and very long-term installation applications, and are easily crimped cleanly into place with Hog Ring Pliers.

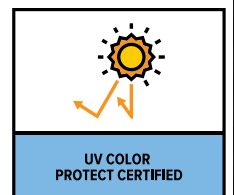

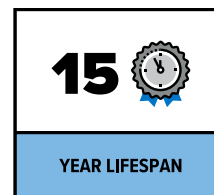

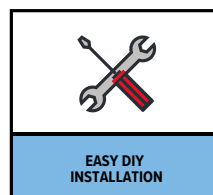

HOG RING PLIERS

EASILY CLASP THE HOG RINGS

Our steel **Hog Ring Pliers** have a special groove used to securely hold steel hog rings in place during crimping. Saves time over conventional pliers and avoids slip.

1900 SERIES - Yellow Fence Top Cap

SAFETY & PROTECTION

- ➔ UV-Rated HDPE, Durable to Endure Repeated Impacts
- ➔ Covers Both Chain Link Fabric & Top Rail
- ➔ Each Bag Covers 50' of Fence

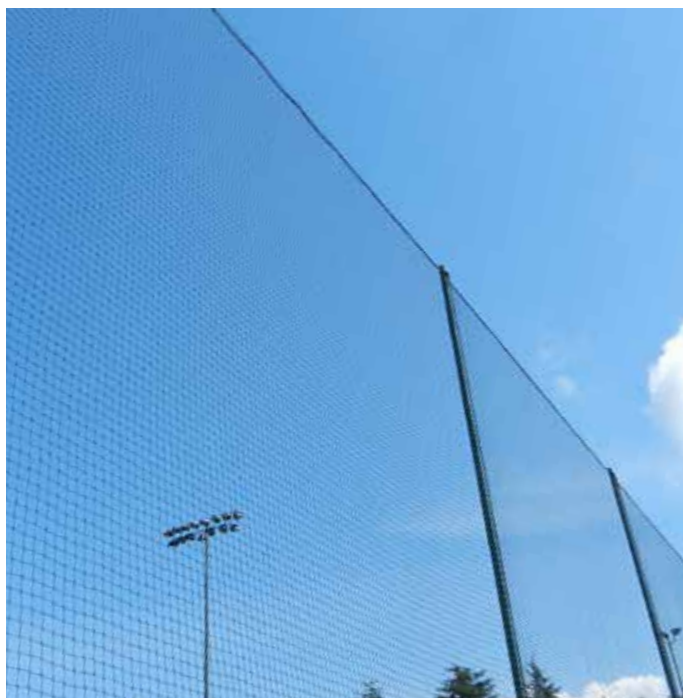

Our premium **Yellow Fence Topper** helps eliminate injuries by covering the exposed chain-link knuckles at the top of the fence, creating a safe and decorative trim cover. Designed from highly durable, smooth, flexible plastic in a tubular shape.

NOISE DAMPENING SCREEN

- ➔ 100% Privacy Blockage
- ➔ 32dB STC Rating
- ➔ 16' Long x 4' Wide 1/8" Thick

SoundBlock was designed to offer commercial-grade sound dampening to any existing structure, wall, floor, or enclosure. Mold and U.V. resistant, this product was manufactured to perform in both indoor and outdoor applications.

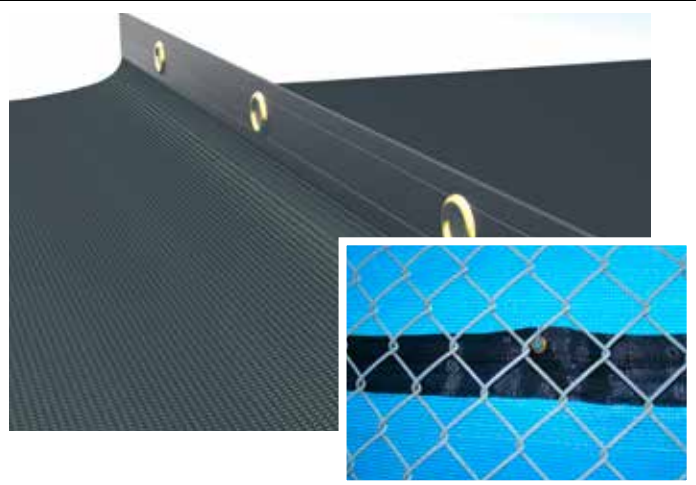

JET
BLACK

HALF-MOON WIND VENTS

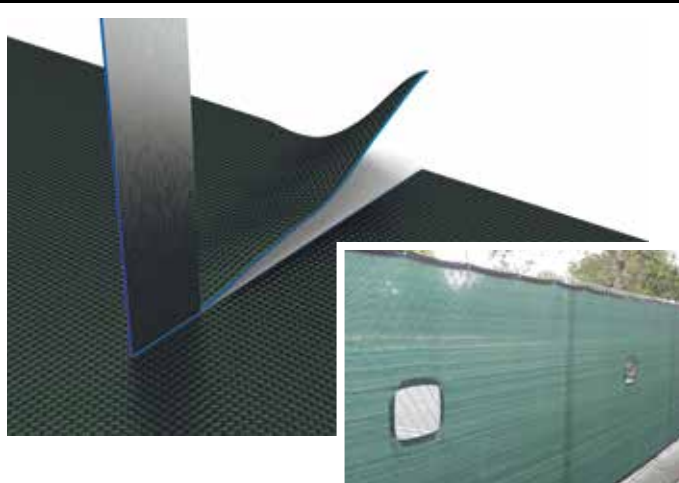

Half-Moon Wind Vents allow more air to pass through the fence screen on windy days, reducing the strain on the fence. The **wind vent** is a heat sealed opening with a flap that opens when windy, and hangs in a closed position when not. Wind vents are added for every 10' of screen or five (5) per 50' roll.

CENTER BINDING STRIP

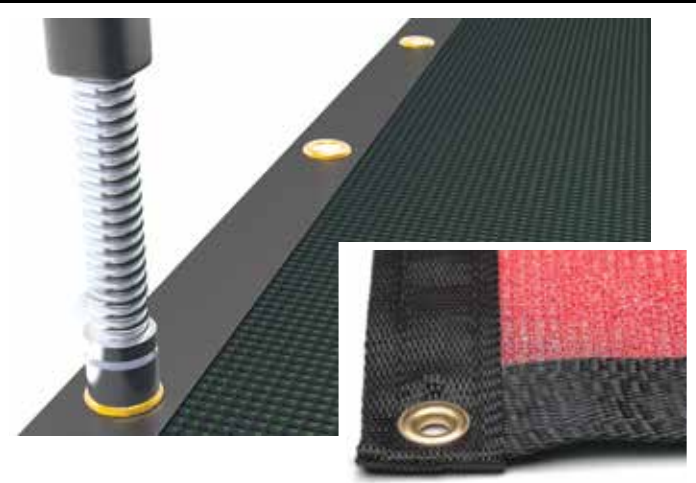

Reinforced **Center Binding Strip** reduces wind effect, minimizes billowing and allows a center attachment to the fence. **Center Binding Strip** is attached horizontally with grommets to add support at the center of the windscreen.

WIND WINDOWS

Wind Windows are ideal for windy areas. The reinforced open-air 12" square window design without flaps allows wind to pass through the screen reducing stress on the fence, reinforced opening without flaps.

REINFORCED BINDING

Reinforced Binding is a high strength 2 3/4" polypropylene material which is folded and stitched to the perimeter of the fence screen. Our **Reinforced Binding** adds strength & grommet support, creating a longer lasting fence screen.
