

Most installations use the chain link mesh as the attachment points and not the posts, requiring only L7 Fasteners for a clean, strong fit. For additional mounting strength use L8 Fasteners, or for installations with non-standard or difficult mounting points, use L14 Fasteners.

**L14**

**L8**

**L7**

**FENCESCREEN SPECIFICATIONS**

**MATERIAL COMPOSITION:** UV HIGH-DENSITY FILTERED NYLON

PROPERTIES	L7	L8	L14
LENGTH	7"	8"	14"
TENSILE / BREAKING STRENGTH	50lb	50lb	120lb
MAX POST DIAMETER	1-7/8"	2-1/4"	3-3/4"

**NOTE:**  
INSTALL PER FENCESCREEN MANUFACTURER RECOMMENDATIONS.

L7 Fasteners are suitable for most screen and netting installations.  
L8 Fasteners are Super Heavy Duty for extreme holding strength on Industrial Grade Installations.  
L14 Fasteners are Extra Long for use on non-standard and difficult mounting points (wrought iron fence, etc.)
