

# ATTACHMENT SERIES

# UV SCREEN FASTENERS L7, L8, & L14

Most installations use the chain link mesh as the attachment points and not the posts, requiring only L7 Fasteners for a clean, strong fit.

For additional mounting strength use L8 Fasteners, or for installations with non-standard or difficult mounting points, use L14 Fasteners.

# FENCESCREEN PROPERTIES

## MATERIAL COMPOSITION:

UV-HIGH-DENSITY FILTERED NYLON

PROPERTIES	L7	L8	L14
Length	7"	8"	14"
Tensile/ Breaking Strength	50lb	80lb	50lb
