FENCESCREEN MATERIAL SPECIFICATIONS

MATERIAL COMPOSITION: Reinforced Woven and Coated Polyethylene

PROPERTIES	RESULTS
Material	Woven Polyethylene, 800 Denier
Fire Rating	IAW Class A ASTM e84-11 standard
UV Rating	80% after 200 hours per ASTM
Thickness	8 mil
Material Weight	102 g/m ²
Linear Mass Density	1000 Deniers
Mesh Size	10 x 10 mesh count per square inch
Water Blockage	100%
Attachment	Non-Corrosive grommets at corners & 3' on center at edges
Finishing	Hems folded over and heat sealed; corners reinforced with plastic
