

# BLACK PLASTIC SHEETING

POLYETHYLENE SHEETING

Solid Polyethylene Construction

Suitable For All Weather Conditions

50/50  
lbf

Tensile Grab Strength

80%  
200 hr

UV Resistant

100%  
BLOCKAGE

## USES

This heavy-duty sheeting is ideal for several different kinds of protection. Use it as a moisture barrier around insulation, for cement curing, for heavy dust and debris protection, or as a cover for tools and equipment.

## FEATURES

- Strong and durable plastic sheet for multiple heavy-duty uses
- Use to waterproof and as a dust cover
- Great for concrete curing or covering equipment during projects
- Heavy-duty sheeting works well for weather protection

ITEM	SPEC
Tensile Grab Strength	50/50 lbf
Elongation at Break	550%
Trapezoid Tear	20/20 lbf
Mullen Burst	90 psi
Dimension Stability	<5%
Oxidation Induction Time	20 min
UV Resistance	80% after 200 hr
Thickness	10 mil
Multi-Axial % Deflection	20%
